Summary

Final-year Electronics and Communication Engineering student with experience in full-stack web development, AI integration, embedded systems, and IoT. Proficient in React.js, Node.js, Express.js, MongoDB, and JavaScript, with hands-on experience building and deploying real-world applications.

Education

BIET Jhansi

B.Tech – Electronics & Communication Engineering — 7.32 CGPA

Jhansi, UP, India

2023 – 2027 (Final Year)

Awadh Public School

Lucknow, UP, India

CBSE – HSC: 90% — SSC: 90%

2020 – 2022

Technical Skills

Languages: C++, Python, JavaScript, SQL

Frontend: React.js, Three.js, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, Mongoose, REST APIs

Tools: Git, GitHub, Docker, Vercel, Render

Internship Experience

Tech Associate

April 2026 – August 2026

RanchoLabs, IIT Delhi — Delhi, India

- Collaborated with the R&D team to test, refine, and improve technology-focused curriculum for student training programs.
- Mentored students through project-based learning in Artificial Intelligence, IoT, and Robotics applications.
- Led interactive STEM workshops and trained 120+ students in practical technology concepts and projects.

Projects

STEM Edu

[Live Demo](#)

Tech: React.js, Node.js, Express.js, MongoDB, Socket.IO, Google Gemini API, Razorpay

- Built and scaled a full-stack MERN EdTech platform now reaching 100+ students per month; growing it as a self-run startup and onboarding partner schools to expand curriculum delivery.
- Integrated Google Gemini API for AI-powered project guidance, step-by-step instructions, and troubleshooting.
- Implemented Socket.IO WebSockets for real-time communication between students and mentors during project troubleshooting.
- Integrated Razorpay for secure online course payments with server-side transaction verification.

ElectroBay

[Live Demo](#)

Tech: React.js, Node.js, Express.js, MongoDB, Mongoose

- Developed a full-stack MERN e-commerce platform for electronic components, sensors, and DIY hardware kits.
- Built RESTful APIs using Node.js and Express.js to handle products, carts, authentication, and orders.
- Designed MongoDB schemas using Mongoose to manage users, products, carts, and transactions.

StackForge

[Live Demo](#)

Tech: React.js, Node.js, Express.js, MongoDB

- Engineered and deployed a full-stack platform for web development services, reaching approximately 150 users per month and converting 2 landing-page sales in the last 2 months.
- Developed reusable React.js components and responsive layouts for a consistent user experience.
- Implemented backend APIs using Node.js, Express.js, and MongoDB for data management.

Extracurricular Activities

- **Team Head, Research & Development** – Innovation & Incubation Cell, BIET Jhansi (July 2026 – Present)
- **Coordinator** – Bundelkhand Innovation and Incubation Center Foundation (BIICF) (2024 – Present)
